

UID EXPERIMENT 10

NAME: ANISHA G

ROLL NO: 240701041

Design input forms that validate data (e.g., email, phone number) and display error messages using HTML/CSS, JavaScript (with Validator.js)

AIM:

The aim is to design input forms that validate data, such as email and phone number, and display error messages using HTML/CSS and JavaScript with Validator.js.

PROCEDURE:

Step 1: Setting Up the HTML Form

Start by creating an HTML form with input fields for the email, username, password and phone number.

html

```
<!DOCTYPE html>
```

```
<html>
```

```
<head>
```

```
  <title>Sign In</title>
```

```
</head>
```

```
<body>
```

<h2>Sign In</h2>

<form>

<label>Username or Email:</label>

<input type="text" name="username" required>

<label>Phone Number:</label>

<input type="tel" name="phone" required>

<label>Password:</label>

<input type="password" name="password" required>

<label>Confirm Password:</label>

<input type="password" name="confirm_password" required>

<button type="submit">Submit</button>

</form>

</body>

</html>

OUTPUT:

Sign In

Username or Email:

Phone Number:

Password:

Confirm Password:

Submit

Step 2: Styling the Form with CSS

Next, add some basic styling to make the form look nice.

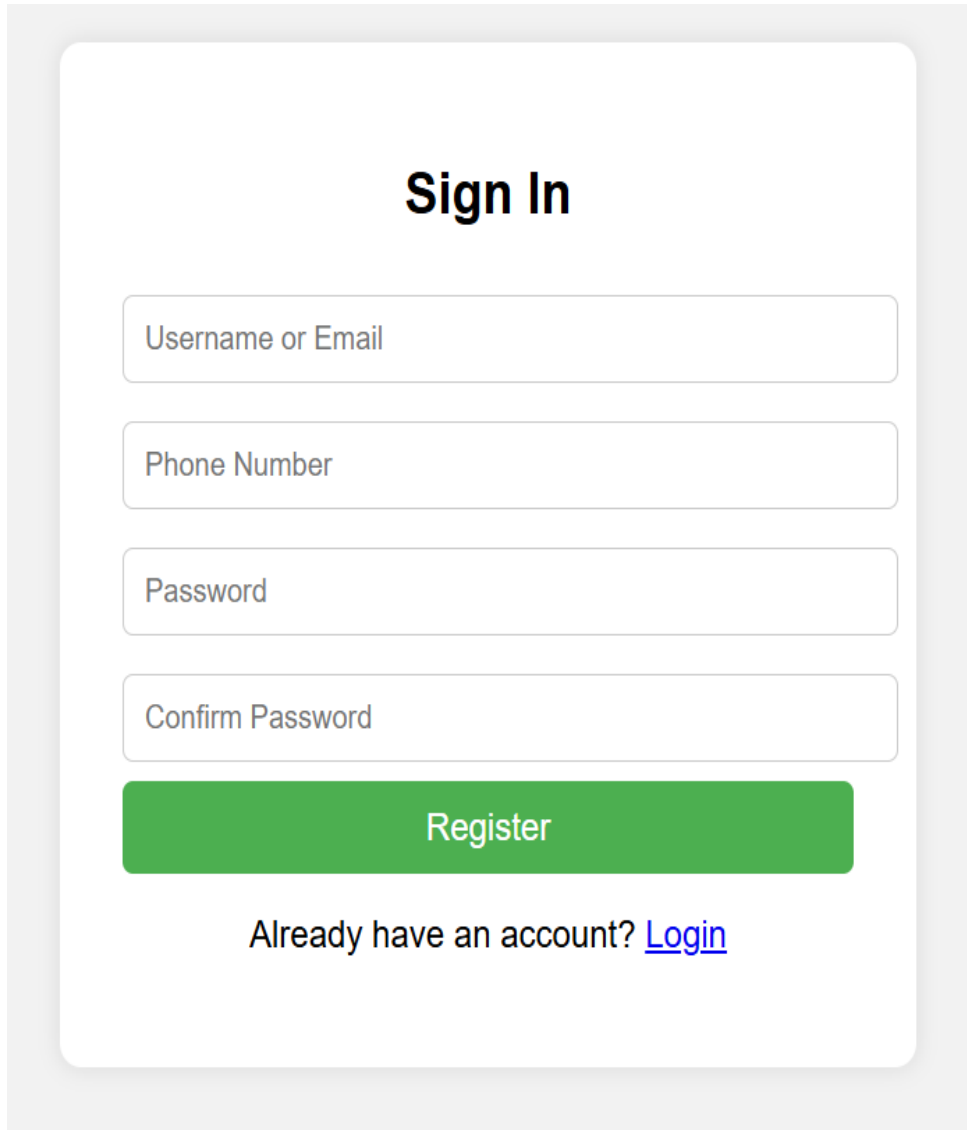

Css

```
body {  
    font-family: Arial, sans-serif;
```

```
background: #f2f2f2;
display: flex;
justify-content: center;
align-items: center;
height: 100vh;
}
.container {
background: #fff;
padding: 30px;
border-radius: 10px;
box-shadow: 0 0 10px rgba(0,0,0,0.1);
width: 350px;
}
h2 {
text-align: center;
margin-bottom: 20px;
}
input {
width: 100%;
padding: 10px;
margin: 8px 0;
border: 1px solid #ccc;
border-radius: 5px;
}
```

```
button {  
    width: 100%;  
    padding: 10px;  
    background: #4CAF50;  
    color: white;  
    border: none;  
    border-radius: 5px;  
    font-size: 16px;  
    cursor: pointer;  
}  
button:hover {  
    background: #45a049;  
}  
.link {  
    text-align: center;  
    margin-top: 10px;  
}
```

OUTPUT:

The image shows a 'Sign In' form. It has a title 'Sign In' at the top. Below the title are four input fields: 'Username or Email', 'Phone Number', 'Password', and 'Confirm Password'. Below these fields is a green button labeled 'Register'. At the bottom, there is a text link: 'Already have an account? [Login](#)'.

Step 3: Adding JavaScript for Validation

Finally, add JavaScript to validate the input fields using Validator.js and display error messages.

Javascript

```
function validateForm() {
```

```
let username = document.querySelector('input[type="text"]').value;
let phone = document.querySelector('input[type="tel"]').value;
let password = document.querySelectorAll('input[type="password"]')[0].value;
let confirmPassword =
document.querySelectorAll('input[type="password"]')[1].value;

// Check empty fields
if (username === "" || phone === "" || password === "" || confirmPassword ===
"") {
    alert("All fields are required!");
    return false;
}

// Phone number validation (10 digits)
let phonePattern = /^[0-9]{10}$/;
if (!phonePattern.test(phone)) {
    alert("Enter a valid 10-digit phone number!");
    return false;
}

// Password length check
if (password.length < 6) {
    alert("Password must be at least 6 characters long!");
    return false;
}

// Password match check
if (password !== confirmPassword) {
```

```
    alert("Passwords do not match!");  
    return false;  
}  
alert("Form submitted successfully!");  
return true;  
}
```

OUTPUT:

The image shows a 'Sign In' form with a white background and rounded corners, set against a light gray backdrop. The form contains the following elements:

- Header:** The text 'Sign In' in a bold, black, sans-serif font.
- Email Field:** A text input field containing the email address 'anisha@gmail.com'.
- Phone Number Field:** A text input field with the placeholder text 'Phone Number'. This field is highlighted with a thick black border, indicating it is the source of the error.
- Validation Message:** A small, light gray tooltip box with a thin black border and a small orange triangle pointing to the 'Phone Number' field. It contains an orange square icon with a white exclamation mark and the text 'Please fill out this field.'
- Other Fields:** Two additional text input fields, each containing three dots '...', representing password fields.
- Register Button:** A solid green rectangular button with the word 'Register' in white, centered text.
- Footer:** The text 'Already have an account?' followed by a blue, underlined link labeled 'Login'.
